

## Let me out!

Your photographs are not meant to be hidden away in albums or left to languish in a darkened drawer. Let them see the light. Be proud, and bring the room alive. Let your memories or special moments become works of art.

At Retina Photography we concentrate on supplying three simple choices of presentation using specialist suppliers, not a 'one-stop shop' solution. This ensures the quality is of the highest order.

The first and, currently, most popular is the modern, glass free, 'floating box' frame. Looks good anywhere, from the bedroom to the boardroom.

If you fancy something truly unique, why not convert your picture to a 'canvas print'. Each canvas oozes quality with an attention to detail of finishing that belies the price.

Our third choice is the more traditional approach. We offer a range of contemporary, hand made, glass frames with professional mounting and finishing.

One spread equals  
two facing pages.

For each page of your book, you can choose to have a single picture or a combination of pictures. Your choice of spreads (pages) excludes the front and back cover, which are automatically included.

**For example:**

If you decided to purchase a 7 x 5 inch book with 10 spreads, this would equate to 20 individual pages, plus the front and back covers. Therefore, the minimum number of pictures required to completely fill the book, without duplication, would be 20 plus 2 for the front and back cover . A total of 22 pictures.

You may opt to have the same image inside, as on the cover, and have blank pages if you have fewer than 20 pictures. The price will be the same as the nearest indicated spreads (10, 20 or 30). For larger books, you may also opt for a single image to ‘spread’ across two pages.
