

## Let me out!

Your photographs are not meant to be hidden away in albums or left to languish in a darkened drawer. Let them see the light. Be proud, and bring the room alive. Let your memories or special moments become works of art.

At Retina Photography we concentrate on supplying three simple choices of presentation using specialist suppliers, not a 'one-stop shop' solution. This ensures the quality is of the highest order.

The first and, currently, most popular is the modern, glass free, 'floating box' frame. Looks good anywhere, from the bedroom to the boardroom.

If you fancy something truly unique, why not convert your picture to a 'canvas print'. Each canvas oozes quality with an attention to detail of finishing that belies the price.

Our third choice is the more traditional approach. We offer a range of contemporary, hand made, glass frames with professional mounting and finishing.

# Floating Box Frames

Frame surround styles

The ideal way to give your pictures that 'in vogue' fine art gallery look at a very reasonable price.

Float frames are lightweight, glass free, and an ideal way of giving your photographs a modern and minimalist look. The frames are designed to allow the picture to hang flush against the wall or any flat surface. All frames are supplied with cardboard corners and covered in clear shrink-wrap for safe delivery. With two choices of moulding depth, 30 mm or 50 mm, these stylish frames can be made up to 40" x 60" in size. Each print is pressure bonded onto 5 mm foam centred board and laminated with a durable UV matt finish film for extra protection.

Choose a single frame, if you want your picture to be THE centre of attention or a group of frames, if you fancy making a big splash!

**GO ON, STAND OUT FROM THE CROWD!**

## Benefits

- Light weight
- Ready to hang
