

Let me out!

Your photographs are not meant to be hidden away in albums or left to languish in a darkened drawer. Let them see the light. Be proud, and bring the room alive. Let your memories or special moments become works of art.

At Retina Photography we concentrate on supplying three simple choices of presentation using specialist suppliers, not a 'one-stop shop' solution. This ensures the quality is of the highest order.

The first and, currently, most popular is the modern, glass free, 'floating box' frame. Looks good anywhere, from the bedroom to the boardroom.

If you fancy something truly unique, why not convert your picture to a 'canvas print'. Each canvas oozes quality with an attention to detail of finishing that belies the price.

Our third choice is the more traditional approach. We offer a range of contemporary, hand made, glass frames with professional mounting and finishing.

Steve Hughes
Retina Photography

Going the digital route means that you can have your favourite photograph, or photographs, as a background (often referred to as wallpaper) on your Windows or Apple Macintosh computer screen to remind you of a loved one or a special occasion.

Any photograph can be used as the basis of your Facebook profile picture. With two formats to choose from, tall or square, they come edited, cropped and ready to go.

Alternatively, with a choice of three sizes to meet every budget, why not order a 'print ready' file to do with as you please (*).

SWITCHED ON DIGITAL!

(* subject to licensing agreements made at the time of ordering)

Benefits

- No printing costs
(Desktop and Facebook option)
- Facebook profile photograph - no editing necessary
- Download digital files at your leisure

All prices correct at time of publication but are subject to change

Digital Products: (download files)		
Size (Pixels)	Image type	Price (£)
1024 x 768 Pixels	Computer Desktop/Wallpaper image	£3.00 each
1280 x 960 Pixels	Computer Desktop/Wallpaper image	£4.00 each
1600 x 1200 Pixels	Computer Desktop/Wallpaper image	£5.00 each
180 x 180 Pixels	Facebook Profile image (Square)	£2.00 each
180 x 540 Pixels	Facebook Profile image (Tall)	£2.50 each

Digital Products: (download files)		
Size (Pixels)	Image type	Price (£)
5 Megapixels	High Resolution	£10.00 each
3 Megapixels	Medium Resolution	£7.50 each
1 Megapixel	Low Resolution	£5.50 each

A megapixel is a rounded number, found by multiplying the total number of horizontal pixels by the total number of vertical pixels in a given image. The number of horizontal and vertical pixels will depend on the size of the image (after cropping). For example, 2,500 pixels (on the longest side) by 2,000 pixels (on the shortest side) equals 5,000,000 pixels in total. Or, for the purposes of simplicity, 5 Megapixels. The values are rarely, if ever, simple rounded numbers, but will always equal the final size offered for sale.

High resolution: (Professional or Photo Lab Printing)

A 5 Megapixel JPEG file, which is suitable for making large prints and online use

Medium resolution: (Desktop Printing)

A 3 Megapixel JPEG file , which can be used for small to medium size prints and posting online.

Low resolution: (Web Image)

A 1 Megapixel JPEG, which is good for posting to forums, using as a profile photo, and so on.

License agreements:

Full usage licensing agreements will be displayed at the time of ordering. It is a requirement that you agree to the terms and conditions prior to the sale.

Please feel free to make contact with any questions, or if you require alternative or bespoke sizes.
