A PET PORTRAIT SESSION IS YOUR 'INVESTMENT IN MEMORIES'

Our pets are one of the most important members of the family. Sometimes they seem to be 'THE' most important. They often get the best seat in the house, top class cuisine, if you believe the labels, and will soak up as much love and attention as a you are willing to give them. They grow up so fast, and give us so much pleasure, that it seems only right they should be given pride of place on our walls. Whether it's a canvas print, a modern, glassless box frame, or a classic matted and framed print, I know that you'll love the end result. Mounted pictures make ideal presents for Birthdays, Christmas or Anniversaries, and can give a splash of something special to any wall.

I would love the opportunity to capture some special moments of your pet, for you and your family to cherish for ever. I can photograph them at home, inside or out, during a favourite walk, or any special location that means something to both of you.
