

Let me out!

Your photographs are not meant to be hidden away in albums or left to languish in a darkened drawer. Let them see the light. Be proud, and bring the room alive. Let your memories or special moments become works of art.

At Retina Photography we concentrate on supplying three simple choices of presentation using specialist suppliers, not a 'one-stop shop' solution. This ensures the quality is of the highest order.

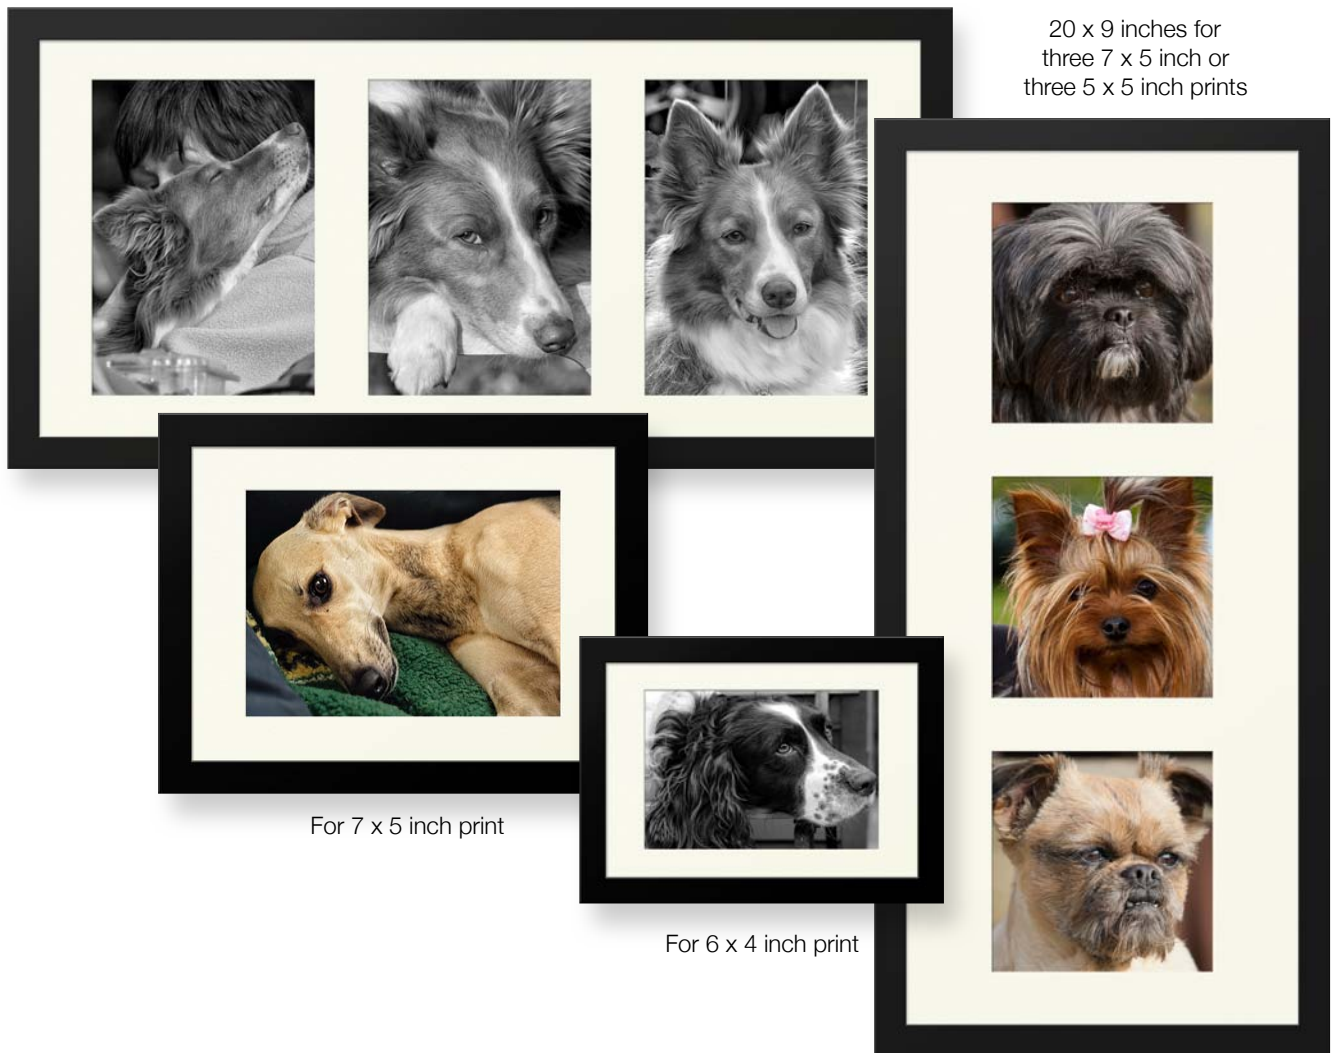

The first and, currently, most popular is the modern, glass free, 'floating box' frame. Looks good anywhere, from the bedroom to the boardroom.

If you fancy something truly unique, why not convert your picture to a 'canvas print'. Each canvas oozes quality with an attention to detail of finishing that belies the price.

Our third choice is the more traditional approach. We offer a range of contemporary, hand made, glass frames with professional mounting and finishing.

Simple Frames

If bespoke framing is not to your taste or budget, it doesn't mean that your photographs can't have the star treatment. Keep it simple with these modern, black wood, designs. With clean square lines and an off-white textured mount, they are the perfect accompaniment for all colour, or black and white, photographs. Each photograph is printed on Fuji premium quality lustre paper, which is a heavier weight than that used by the high street and most on-line printers. It is then checked for quality and colour correction before mounting by hand. The back of the frame is sealed to stop dust or small insects from gaining access to the inside, ensuring a high quality finish.

The most popular sizes are shown here, but others are available on request. All frames are supplied ready to hang. Mounts for square and non standard size pictures are available as an extra.

LOWER COST DOESN'T HAVE TO MEAN LOWER QUALITY!
